Day 4: Baviaanskloof Nature Reserve

This morning we hop on our bikes and enter the Baviaanskloof Mega Reserve, a pristine natural area of approximately 270 000 hectares of unspoiled, rugged mountainous terrain. This area also boasts a wide variety of wildlife such as Cape Leopard, Cape Buffalo, Kudu, Cape Mountain Zebra, Red Hartebeest, Bushbuck, Mountain Reedbuck, Eland and Baboon. A back up vehicle will be available throughout the day.

Cycling distance: Approximately 60 Km

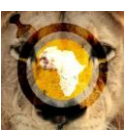

Day 5: Baviaanskloof Nature Reserve

After an early start to the day we set off on the next part of the journey through this natural wonderland. Today we will cycle through the main wildlife section with the ability to spot free roaming wild animals on your bike. Game viewing doesn't get much better than this. By mid afternoon we will set up our overnight campsite, the rest of the day is all yours to relax. A back up vehicle will be available throughout the day.

Day 6: Baviaanskloof Nature Reserve to Sedgefield

After a leisurely start to the day the first half of the day is spent driving through this desolate landscape. Once we have reached the famous Prince Alfreds Pass we hop back on to our bicycles to cycle through the longest mountain pass in South Africa as we traverse the Langkloof Mountain range into the lush Garden Route scenery. The ever changing landscape provides epic views as we head towards to the town of Sedgefield, a hidden gem on the Garden Route that boasts the title of Africa's first official "Slow Town" and an untouched 14 km long beach.

Cycling distance: Approximately 70 km

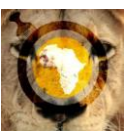

Day 7: Sedgefield to George Airport

After breakfast we head to the regional airport in the city of George where the tour will end on arrival.

Social responsibility

Guides for this tour are from disadvantaged local communities and are well trained on the flora and fauna of this unique area. The employment opportunities provided for these guides are extremely important sources of income for themselves and their families. Supporting these initiatives helps to build sustainable communities that are educated on the importance of preserving this pristine environment. Additionally guests have the option to "green" their trip and offset their carbon footprint by adding the cost of a tree to the total price of the tour, this will go towards to planting an indigenous tree in the surrounding area. Guests will receive the GPS coordinates of the tree.
